ANNUAL REPORT OF
RED DEER MUNICIPAL HOSPITAL

The Secretary-Treasurer of the Municipal Hospital gives a most complete and comprehensive financial statement this week, which we are pleased to pass on to the public, and we congratulate both Secretary and all those who have had anything to do with this splendid showing. We hope the report will be carefully read by every interested citizen.

RED DEER MUNICIPAL HOSPITAL, '1924

The Hospital Board, Red Deer, Gentlemen:

I submit my annual report herewith. The following statements are submitted:

1. Statistics of patients.	409
2. Cash receipts and disbursements.	2050
3. Balance sheet; assets and liabilities.	23
4. Maintenance cost.	23
5. General report.	23
6. Statistics of Patients	409
No. hospital days	2050
No. babies born	23
No. maternal deaths	23
No. baby deaths (premature)	23
No. babies stillborn	23
No. obstetrical cases	23
No. surgical cases	23
No. medical cases	23
No. minor operations	23
No. deaths after 48 hours	23
No. deaths within 48 hours	23
No. patients hospital supporters	23
No. patients non-hospital supporters	23

There were 77 more patients admitted than in 1923, and there were 513 more hospital days than in 1923. The number of surgical cases is very large for a hospital of this size, and the number of minor operations is only exceeded by the large city hospitals. The number of hospital supporters who are patients remains about the same as last year—15 percent of the total.

Cash Receipts and Disbursements

The cash statement shows the cash received and paid out during the year. It is gratifying to report that we maintained the year 1924 with cash in the bank during the year. The accounts owing by the hospital were paid promptly each month, all debentures paid when due, and no time during the year was it necessary to borrow any money, but on the contrary we received interest on the monthly balances to a total of \$39.00. At the end of the year every debt was paid except for the December interest accounts which were not received until after January 1st and all of which have since been paid, and we had the end of the year a cash balance in the bank to commence the 1925 work.

Besides paying the maintenance of the hospital, \$1916.27 was paid for the year's revenue to pay the excess costs of the annual maintenance grant, and additional apparatus and improvements over the amount of the grant of \$5000.00.

Mrs. Sayre, of Newburgh, N. Y., in memory of the late Jennie McLeod. The receipts from the sale of the hospital insurance exceeded the amount paid for debenture coupons by \$148.49 and the receipts from patients' fees, patients' accounts, Government grant, and bank interest exceeded the cost of maintenance. So long as this condition exists the financial position of the hospital is absolutely sound, and there will be, of course, no necessity for increasing the tax levy for hospital insurance or patients' fees.

Red Deer Municipal Hospital, 1924

Cash Statement

Receipts

Cash on hand Jan. 1, 1924	32.02
Cash in bank Jan. 1, 1924	2018.83
Patients' fees	13003.53
Patients accounts rec.	150.25
Insurance (patients)	72.09
Insurance (others)	235.99
Government grant	5000.00
Proceeds debentures	4054.40
Bank interest	39.00
Taxes	235.71
Municipal Hospital	235.71
Bank returns	100.23
	\$27,681.29

Disbursements

Salaries, Officers	350.00
Office expenses	11.00
Stationery and printing	12.75
Telephone	32.00
Insurance	235.99
Accounts payable	128.61

MOTHERS LIKE TO TREAT
COLDS WITH VAPORS

Direct Treatment with Vaporizing
Salve Immediately Reaches
Inflamed Air Passages

It is long known that the cold troubles all the family, because it is just rubbed over throat and chest—there is nothing to take. When so applied Vicks gives off medicated vapors which are inhaled directly into the inflamed air passages, loosening the phlegm and making the breathing easier.

At the same time Vicks is absorbed and stimulates the skin like a liniment or plaster and thus aids the vapors inhaled to break up the congestion.

At all drug stores 50c a jar. For free test-size package, write Vicks Chemical Co., 344 St. Paul St., Montreal, P.Q.

A FINANCIAL DEBACLE

Earlier in the year the King Government by meeting, through the backing of notes, obligations for over \$70,000,000, was in a position to surplus of \$35,000,000. This was a desperate expedient, but the Government made much of its financial surplus. It was hailed as the beginning of a new era in debt reduction.

New the Finance Department's own statement shows that in November there was an increase of \$35,000,000 in the public debt. This was due to the fact that the Government had to borrow money to meet its obligations.

This year's financial statement will show the worst muddling in the history of the present government. The last Budget was one of the most reckless ever presented to a Canadian Parliament. It was a complete failure.

In deception, for they led the public to believe that there would be a reduction of \$47,000,000 in the year's expenditure. Eight months of the year show that the current expenditure has only been \$2,587,374 less than for the corresponding period last year, while an increase of \$4,007,291 in capital expenditure makes the actual total \$1,520,017 greater than during the same period last year.

Forced into making some reduction in certain forms of taxation, the Government took a leap in the dark, and the returns for the eight months show that it is confronted by a loss of \$4,000,000 in revenue. A loss of \$5,000,000 a month means \$60,000,000 on the year.

Is it any wonder the people try out for a change? Looking across the line to the United States they see that within the last four years the national debt in that country has been reduced by nearly four billions of dollars. They see also that the taxes per head of the population have been cut from \$4.00 to \$2.00.

Under the present Government there is no hope of real tax reduction, for expenditure is not reduced. Apparently there is no thought of reducing taxes. Heavily unwarmed new expenditures are being undertaken all over the country, and the indications are that this will continue as long as the King Government remains in office.

Is it any wonder that, under these conditions, business lurches? Is it any wonder that people emigrate? The tax gatherer is taking so large a toll from Canadian industry today that in some respects Canada is ceasing to be the land of opportunity.

Business in this country can't afford to pay 50 percent higher federal taxation than is paid in the United States, and the sooner this is realized the better.

GREENFIELD AND DUNNING SUCCESSFUL ENGLISHMEN

S.S.B. Official Cities Cases of Premiers Who Found Canada Land of Promise

London, January 28.—The battle between those who believe that Canada is a country of magnificent opportunities for emigrants and those who denounce it at every turn, has again broken out, this time in the Yorkshire Post, to which paper Canadians are writing from all parts of the Dominion giving their views on one side or the other.

This morning B. J. Ashton, of the commissioner's office of the Soldier Settlement Board of Canada, writes to the Post, giving some telling instances of emigrants from England to the Dominion who have made good in their new home, citing the cases of Premier Greenfield of Alberta and Premier Dunning of Saskatchewan, to show that Englishmen who have grit and ability are bound to succeed in the Dominion.

Champion Wheat Growers "Dr. Senger Wuestner, of Rosbush, Sask., and Mr. J. C. Mitchell, of Dohnda, Sask., says the letter, "have both on a number of occasions won at Chicago, the prize given for the best wheat grown on the North American continent. Both are Englishmen, as was the late J. C. Hill, of Lloydminster, Sask., who three times won the Colorado trophy for the best oats grown in North America."

This letter is followed by a communication from Philip H. Bracken of Winnipeg, quoting the Montreal Star as saying Canada faces bankruptcy today, and adding that he mentions that there are 25,000 unemployed in Winnipeg today, and that recent immigrants are to be seen carrying the garbage cans at the backs of hotels and calling Canada a modern Canaan. He advises everyone to stay at home.

Seek Definite Information With such diversity of opinion Canadians here once more emphasize the importance of establishing authoritative agencies other than those belonging to the transportation companies, who will state clearly the full facts of the situation and eradicate false impressions. A list of facts and figures similar to those given by Mr. Ashton would be regarded as most efficacious in achieving this result.

THE BANFF CARNIVAL

Banff, Alberta, January 28, 1925.—Norman Luxton and Gordon Standish of Banff are visitors in Calgary just now. Both are enthusiastic over the forthcoming Carnival at Banff.

They say that entries from as far east as Montreal, Quebec, West to Vancouver, South to Montana, and North to Edmonton, have already been received by the management. For the numerous contests being held in connection with the big event, fancy skaters are coming from Montreal, speed skaters from Montana and Edmonton, and a hockey team and several speed and fancy skaters from Vancouver.

Tenastoke, B.C., is sending a contingent of ski jumpers and a number of Calgary knights of the steel blades will also be seen in action.

The Canadian Pacific has arranged to run a special excursion from Calgary to Banff on Wednesday, February 11th, in connection with the Carnival. The train will leave Calgary at 8 a.m., returning it will leave Banff at 8:30 p.m., and is scheduled to arrive back in Calgary at 11:35 p.m. This will allow nearly ten hours at the mountain resort to take in the Carnival.

An excursion fare of \$5.35 has been arranged, which will include tax. This special excursion should interest many country people.

U. F. A. PARLIAMENT

H. W. Wood, as was generally expected, was re-elected president of the United Farmers of Alberta, by acclamation, for the ninth consecutive year at the close of the morning session of the organized farmers' convention on Jan. 24th.

The re-election of a new president of the women's organization, was also re-elected by acclamation for the ninth consecutive year.

Both Mr. Wood and Mrs. Gunn were greeted with loud applause. A rather tedious session on Friday night brought to a close the seventeenth annual convention of the U. F. A., a gathering which has been marked by nothing quite so much as its lack of important events and the absence of discussion. Indeed, the session was so down in history as the convention of harmony.

Approval of the progress made by the subsidiary co-operative marketing organizations and a smoothing over of the one difference of opinion between federal members from Alberta were the high lights of the convention. In nothing was the absence of discussion so marked as in the return of the executive body for the ensuing year, practically without opposition.

The opinion is expressed that never was there such a spirit of harmony within the big organization as exists at the present time.

Separate Fairs Although it is recognized that the U.F.A. is developing the political field as well as the economic one, there was no doubt in the morning over the effect of a resolution which passed after a spirited debate on Friday afternoon, that the U.F.A. should insist on consolidation of fees, and fairly general satisfaction was expressed over the result of the vote which makes it necessary for a member of a U.F.A. local to contribute also to the fund of the federal and provincial constituency organizations.

It was pointed out that a serious mistake would be made if a redundant living, took the stand of coercing its members into joining the political body of the same name.

In dealing with the statement issued to the convention relative to the so-called ginger group in the house of commons, the meeting officially sounded the death knell of this faction.

Federal Election Near "We are approaching a federal election, I don't know how soon," said President Wood, in commenting on this document, "and these resolutions should be considered as dealing with the future and not with the past. As for occurrences at Ottawa are concerned, the incident is a closed one."

Thus it would appear that as far as the activities of the ginger group are concerned, the U.F.A. is satisfied that the Alberta federal members have agreed to compromise their differences.

President Wood expressed regret that the whole incident could not have been closed by the unanimous gesture of confidence from the convention on Thursday. He, however, emphasized the importance of the meeting very carefully considering the statement issued by the central board as an interpretation of the resolution adopted in 1919 for the guidance of the federal members. He pointed out that this statement was not to be construed as placing any fetters around the Ottawa group but merely as an indication of the attitude of the parent association.

Following discussion of this document came by clause, its resolutions were unanimously adopted by the convention.

Terms of Resolution This resolution declared that the convention spoke as the "supreme U.F.A. authority." Members elected as U.F.A. members are expected to attach themselves to no other legislative group or party. Each member is responsible directly to his own constituency organization, and through that to the organization as a whole.

Each U.F.A. group is expected to co-operate with other legislative groups as such, with other parliamentary groups or individuals "where practicable to do so in the interests of the legislative group."

The fullest constituency autonomy is recognized. A U.F.A. group may act with, and invite into its councils, individual parliamentary members who may cooperate with other legislative groups in the organization of a larger agricultural group.

For service requiring special training the constituencies are permitted to go outside the ranks of the U.F.A. for a candidate.

The resolution set out also that the constituency associations, legislative interests other than political, and it was decided that they should be known

as U.F.A. units and not as political associations.

Federal Redistribution "The present redistribution of federal constituencies in this province is an example of the rottenest form of gerrymander," stated Mrs. D. Taylor of Big Valley, in discussing a resolution calling for a reduction in the number of members in the provincial legislature.

The opinion of the meeting was strongly in favor of cutting down the number of provincial members, as it was held that this would be in the interests of both economic and legislative efficiency.

A suggestion, however, to reduce the representation to three for every federal constituency was strongly criticized, as it was felt that the redistribution should be on the basis of population rather than of area.

A further clause of the resolution suggests that in all provincial elections the system of proportional representation be used.

Hon. George Howley made the best of an opportunity to justify his scheme of educating the British boys at the Vermilion school. The minister pointed out that these student farmers were not displacing Alberta boys and girls at the school; that the average farmer can make a first class payer very little, and that their assimilation was the best form of publicity for the province.

Liquor Act Relief The work out of the liquor act came in for some discussion in a resolution from the East and West.

A Calgary association that the government be requested to appoint a commissioner to take charge of all the effects of the liquor act, and that the cost of such relief be a first charge on the liquor profits of the province.

That the convention was opposed to the principle of the government of distress and want relief, and that the decision in a resolution from the Red Deer provincial association.

On call for the abolishing of the railway commission in view of the decision on the Crows Nest agreement, sent in by the Acadia association, failed to find a sponsor in the convention.

The Canadian senate came in for some rough treatment at the hands of a number of delegates who strongly favored this body being abolished.

A resolution commending the practice of publishing the account of the proceedings of the provincial legislature in the "U.F.A." the official organ of the association, was adopted, and a recommendation was made that this procedure be followed during the coming session of the house.

The minister of education was asked to carry out a vigorous program of teaching the effects of the liquor and liquor, which were, it was stated, "recognized evils, socially, physically and economically."

EVARTS SCOTSMEN

Celebrate Burns' Anniversary with Concert and Dance

The Everts Caledonian Society held a very successful entertainment and dance on Friday, January 23, in memory of their ancient chief, Robert Burns. The weather was not all that could be desired, the school-house was crowded and late comers found only standing room. After a few appropriate remarks by the President, Mr. E. N. Cameron, the first part of the evening was spent in song and recitation, while at intervals selections on the bagpipes added greatly to the evening's enjoyment. The programme was as follows:—

Bagpipe selection—Pipe Major Spence.
Chorus, "There Was a Lad Was Born in Kyle."
Song, "Burns and Scotland Yet"—Mr. B. C. Learned.

Recitation, "Tam o' Shanter"—Mr. A. L. Stewart.
Song, "Robin Adair"—Mrs. Duncan.
Encore, "Coming Thro' the Rye."
Recitation, "Sir a Wife as Willie Hood"—Gordon Simpson.

Bagpipe selection—Mr. John McNeil.
Duet, "Baby Doll"—Mrs. Duncan and Mr. Cameron.
Recitation—Mr. John Simpson.
Chief McDonald's remarks.
Song, "Rock o' Hazelton"—Mrs. Learned.
Encore, "Auld Scotch Songs."
Recitation "Cu' Me Scotty"—Wilson.

Chorus, "There Was a Lad Was Born in Kyle."
Song, "Burns and Scotland Yet"—Mr. B. C. Learned.

Recitation, "Tam o' Shanter"—Mr. A. L. Stewart.
Song, "Robin Adair"—Mrs. Duncan.
Encore, "Coming Thro' the Rye."
Recitation, "Sir a Wife as Willie Hood"—Gordon Simpson.

Bagpipe selection—Mr. John McNeil.
Duet, "Baby Doll"—Mrs. Duncan and Mr. Cameron.
Recitation—Mr. John Simpson.
Chief McDonald's remarks.
Song, "Rock o' Hazelton"—Mrs. Learned.
Encore, "Auld Scotch Songs."
Recitation "Cu' Me Scotty"—Wilson.

Chorus, "There Was a Lad Was Born in Kyle."
Song, "Burns and Scotland Yet"—Mr. B. C. Learned.

Recitation, "Tam o' Shanter"—Mr. A. L. Stewart.
Song, "Robin Adair"—Mrs. Duncan.
Encore, "Coming Thro' the Rye."
Recitation, "Sir a Wife as Willie Hood"—Gordon Simpson.

Bagpipe selection—Mr. John McNeil.

MANY DEATHS FOLLOW COLD WAVE THROUGH EASTERN U. S.

Third Bitter Wave of Winter Extends
South Along Atlantic Seaboard

New York, January 33.—The third great cold wave of the winter continued to sweep the eastern and southern states today. A heavy toll of deaths directly attributed to the cold and storms followed in its wake. Many cities experienced disastrous fires, while Georgia reported snow in New York the thermometer stood today from three to five degrees above. Four inches of snow that had been hanging down yesterday and during the night on a north-east wind that attained a velocity of forty miles an hour, caused traffic tie-ups throughout the district. Four thousand employees of the street cleaning department must battle all night against the drifts. Twelve thousand additional men were to be added to this force today.

Miss Alice Jones, 65, was found frozen to death in her little cottage in Jackson avenue, Seaford, Del. Her body was found in a rocking chair near a stove in which she had long since gone out. She lived alone.

New York State Cold
Throughout New York state and the east the cold fingers of winter gripped towns, cities and rural districts.

Miss Mary J. Wisley, an aged woman, was suffocated by smoke during a fire early today at Northampton, Mass., which gutted a business block. Firemen battled with the flames with the temperature 33 degrees below zero. The loss was estimated at \$100,000.

James Kelly, 76, of Winsted, Conn., dropped dead of heart failure early today. Doctors said the attack had been brought on by the intense cold.

Traffic Held Up
Sub-zero weather prevailed throughout Connecticut, following a snowfall of six inches. Traffic was impeded throughout the state. At Stamford firemen fought through the night to subdue two fires, one of which destroyed the Grand hotel, with an estimated loss of \$35,000. The fire burned a dormitory at the Mass.

BREAKING UP OF ATOM IS HOPE

Britisher Plans Experiment Which
Will Release Energy

London, January 31.—A surprise is in store for the atom. Dr. T. E. Wall, the Sheffield scientist, hopes to break it up early in 1924.

"What will happen if a real release of atomic energy takes place?" one of his students inquired. "I cannot say," answered Dr. Wall. "I am simply going to wait and see." But he has issued a warning that any one who wishes to be present when the experiment is made must do so at his own risk.

Dr. Wall explains that an atom contains a nucleus of positive electricity, around which electrons whirl, much as planets circle the sun. He gives examples.

An atom of hydrogen has a nucleus of one positive unit charged, and one electron revolving around it at about 1,500 miles per second. An atom of gold has a nucleus of a net positive charge of 79 units and 79 electrons circling around it.

An atom of mercury has a nucleus with a net positive charge of 80 units and 80 electrons around it. If the positive charge of the nucleus can be changed, says the doctor, "the nature of the element will be changed."

"I believe that it is in this way that Professor Rutherford has been able to transmute mercury into gold."

An intense electric current has passed through mercury vapor, and as a result, thought that a number of mercury atoms had been pierced, with the result that the positive charge of the nucleus was reduced from 80 to 79 units, thus converting the mercury into gold.

"If the nucleus of an atom itself can be attacked and broken up, the whole of the atomic energy will be made available, and that is the actual experiment upon which I am now engaged."

PERFUMED FEET

By Edna E. Baldwin.
They shook their heads with heavy frown.

Because a woman had knelt down To spill a costly perfume on the Master's feet.

The one thing poverty left unmet. The bread of Friendship and the wine of Love.

Lay laden palms of Him above, Who blessed the woman that had brought But precious fragrance that a flower had wrought.

Silenced their muttered sense of waste and money lost. They need not, must not count, Love's cost.

"The poor we have forever here," He said. "And soon I go that ye may eat the bread."

Yet even then the shadow of a Cross Fell on the floor and touched their hearts with loss.

AN AGE OF LUXURY

(Vancouver Sun)
The standard of living keeps on going higher in many ways. More genuine silk is being worn now by Canadians than during the war boom.

In raw pounds it is almost twice as much as before the war.

Builders point to another indication of increasing luxury. It used to be the custom, in erecting a home, to have a two-car garage and rent one space. But the tendency now is for the owner to need the entire garage for itself.

The auto industry is moving into a two-car-per-family era. Sales market widens.

THE RED DEER NEWS, RED DEER, ALBERTA.

Wheat Speculation in the Whole World

Feverish Crowds Throng the Office in the Winnipeg Grain Exchange

Winnipeg, January 29.—"Sheep getting ready to be sheared." That is the way the grain trade insiders look at the wheat market.

The wheat market, and yet hundreds of thousands of real dollars have been taken out of the market in the past few weeks and as much in the past three days.

It is the most spectacular situation witnessed on the Winnipeg Grain Exchange since the three-dollar flurry when the government took control under the war board.

You can hear any kind of a story around the exchange, the fortunes taken out by speculators, and they are not the usual type that play the market, but many of them, never bought an option before, and women are numerous. The corridors of the exchange are actually cluttered up these days with a feverishly excited crowd of outsiders, who can't get in to see the 24-hour trading, and over flow into the halls against the tests of the regular dealers.

Make Small Fortunes

Two messenger boys kept their jobs in one large insurance house yesterday having made six thousand dollars out of the wheat market. One news hunter, a reporter, has what is claimed he could cash in for \$10,000, and he is still holding on, for, like most of the rest of the crowd, he is now calculating on May settlement, being on a three-dollar basis.

There is no question but that hundreds of thousands of dollars have been made in Winnipeg, Toronto, Vancouver, Chicago, Minneapolis and New York on yesterday's spectacular rise. A most responsible manager of a big grain exchange firm said to the writer last night:

"Anything can happen in this market, but one thing that is most likely to happen, and usually does happen, is that the public is going to drop a lot of money monkeying with this thing. It is not the regular dealers and speculators, but outsiders, largely farmers that are buying and making this money. Look at the strange faces in the exchange building corridors, women with children, standing around waiting until the head of the family can come out from where he is watching the market changes. Many times the women are in it too."

Farmers Doubling

"Certainly many farmers all over Western Canada are making money in the market and many have cashed in large sums, sold out and gone back two or three times. Toronto has the market and Vancouver, Calgary, in fact the whole country, but the trade is not in it. There is nothing to warrant this speculation. Manipulation alone would account for the fact that the spread between Winnipeg May and Chicago May a few days ago was 15 cents, and last night it was 15 cents. The United States undoubtedly is over sold, but there is plenty of wheat in Canada, say 140 millions, right now, in spite of all you hear to the contrary."

Laid to the Public

"True, millers have not their supplies, but even this would in no way account for the skyrocketing situation. If importing countries were able to buy at present prices, which they are not, it might be justified, but the trade is not trying to justify anything of the kind. It is the public that has made this amazing advance possible. Importers are buying New Zealand and Argentine wheat some 15 cents under these Winnipeg and Chicago quotations, but the public is not considering anything but three-dollar wheat for May delivery."

All Get Fever

"I know one farmer who made one thousand dollars on an investment of one hundred dollars a day or so ago, and now all his neighbors are buying wheat. Even from Quebec we are getting these orders, and they are pouring in from Chicago, but the wise ones are helping him along with selling on the Winnipeg market and buying at Chicago for the spread. I can't say so deliberately that the public is getting ready to be stung good and plenty, and these thimble-riggers in Chicago and New York manipulating things will not be wholly to blame, for the public has really made this money. It is possible, however, that there have been losses, too, but who ever admitted he made a loss gambling?"

How the Bank can help the Farmer

THERE are scores of ways in which your Bank can help you—methods that will surprise you by their convenience and safety.

Take the sale of an animal. If it is a cash transaction, you can ask the purchaser to send you a marked cheque or your bank will attach a sight draft to the bill of lading.

If it is a time sale, your banker will handle and collect the note.

Our manager will be only too glad to outline to you the scores of ways in which he can serve.

HARDWARE DEPT.

COLOR HARMONY AND HOME COMFORT

The color treatment of a house interior must begin with the walls. They form the atmosphere, as it were, which makes a room pleasant or otherwise. Neither floor coverings, draperies nor furniture can minimize the influence of the walls that shut out the world and enclose the home.

MURESCO is a thoroughly satisfactory decoration for walls and ceilings. A wide range of tints is available to harmonize with various color schemes. It is easy to apply, will not show laps, and when used according to directions, will make a smooth, velvet-like finish that will not rub off, crack or peel.

MURESCO is made in Canada. We are agents for the celebrated

BUCKEYE INCUBATORS AND BROODERS and are in a position to obtain one for you on short notice. Ask for book entitled "Bigger Poultry Profits."

Not All Building is Done With Stone and Lumber

GOOD WILL toward your neighbor,
LOYALTY to your home and country,
WHOLE-HEARTED CO-OPERATION
 with those who help you, and
DETERMINATION to attain greater com-
 forts and education.

Those are the materials of which GREAT COMMUNITIES ARE BUILT

Of these--"Good Will toward your Neighbor" has a significant meaning. It means not only having a kind word and a smile for him at all times, but it means--actually Helping Him. He'll do the same for you, thus creating the Spirit so absolutely essential to a Progressive Community.

Yes, there is another interpretation for that clause. It lies in cultivating that form of neighborliness that comes with--**PATRONIZING YOUR HOME MERCHANTS**. In doing so, you help them to become stronger and, therefore, better able to serve you more Economically and Efficiently.

And don't forget to keep boosting

M.D. PINE LAKE COUNCIL

Makes 25 Per Cent Reduction in Assessment

The Council of the M.D. of Pine Lake met at the City Hall, Red Deer, on Wednesday and Thursday as a Court of Revision to consider appeals from the assessment made by Mr. Dave. Every five years a complete assessment of the lands in the M.D. has to be made and when that assessment is considered by the Provincial Assessment Equalization Board and passed as equitable, both on the M.D. and as compared with the scale of values in other M.D.s, then it becomes the basis on which municipal taxation is levied for five years. It may be adopted, and usually is, by the school boards as their basis of assessment and it is the basis on which the provincial supplementary tax is levied. Recent decisions of the Supreme Court of Canada have laid down the rule that land assessments must be based on fair, actual, values, and not on any inflated estimate, even though the latter is equitably based on all the taxpayers. Mr. C. Dawe's assessment of the M.D. was 3 1/2 millions as compared with the present assessment of 4 millions. At the Court there were present: Mr. R. B. Flesch, Reeve, in the chair; Councilors Darragh, Playley, Hives, Coda, Ellenwood, Secretary-Treasurer Trueman and Assessor Dave.

On the opening of the Court the Secretary-Treasurer, Mr. Trueman, put in an appeal against the whole assessment, on the ground that the land was valued too high, and asked a reduction of 25 per cent all around. The average rate per acre in Pine Lake was over \$18, while the average rate in Hays M.D. was \$14, in Brown M.D. \$15, in Golden West M.D. \$14.50, in M.D. Arthur \$14. These were the four bordering municipalities. In one of these cases it had been reduced by a Court of Revision to the present figure.

Mr. Dave explained that the assessment of assessors held in Red Deer last year, at which some twenty assessors from the district were present, he had urged that the Department of Municipal Affairs lay down a basis of valuation for the guidance of the assessors, and had pointed out that the very condition which had arisen today was liable to happen in the discrepancies in valuations between one M.D. and another. They had taken a ballot as to the opinion of the assessors on the value of an acre of good land in their M.D., and the valuations ranged from \$18 to \$40, the average being \$28 to \$30, which was about his own estimate. There was a natural tendency in each M.D., and some competition between them to have the assessment as low as possible in order to have lower taxation in the supplementary revenue tax; while the assessment was higher or lower than others would not materially affect the municipal school taxes. He had endeavored to assess the land at its fair, actual value, and had not consulted with other assessors as to their basis of valuation. As to the Court reducing the assessment by 25 per cent, he did not consider the Court had sufficient facts before it, not sufficient data, to determine whether that would give them a just basis. A general average of pastures, etc. It would be much better, the assessor said, had a key value been laid down throughout the province, leaving the assessors to adjust the variations in soil, etc., and estimate the school and market town location allowances.

It was decided to hear all the appeals present first, and to consider the evidence in all appeals together. Mr. A. B. Hope, Calgary, Tax Commissioner for the Department of Natural Resources, Canadian Pacific Railway, who were the largest taxpayers in the district, appeared and applied for a 30 per cent reduction, at least, in the assessments on their lands. Mr. Hope had found that there was a remarkable coincidence in the valuations placed upon their lands in different municipalities, as if the assessors had talked over the matter; Mr. Dave warmly denied that he had consulted with any other assessors as to land valuations beyond the preliminary meeting of which he spoke. Mr. Hope contended that their assessments were 30 per cent in excess of the actual value, and emphasized the decision of the Supreme Court of Canada that fair, actual, value must be the basis of assessment. Councilor Playley got Mr. Hope and the Assessor down to \$15. 17-26-W4th, which was one mile from Hill End and 1 1/2 miles from Southold. The Company valued this land at \$11 per acre or \$1760, while Mr. Dave had valued half of it at \$18 per acre and the other half on a pasture basis at \$9.50. The assessment, with allowances for school location, etc., was \$2550. Mr. Hope and Mr. Dave were reasonably agreed as to the description of the quarter, as high, rolling land with a thick growth of poplar; no plowed land, a fair growth of grass, some draws and sloughs in one half and a steep side but Mr. Dave contended that the better half was arable land, that is, land capable of producing crops, while Mr. Hope's argument was that it was a timber quarter, which the Assessor had assessed on the basis of open land, cleared land. If this land were assessed on a different basis from raw land, Mr. Dave held, then every farmer who cleared up his land would be penalized in taxation on a higher assessment. Mr. Hope's case was that the land must be assessed as it stood today at its fair actual value; its value was lessened by the enormous loss of labor and money it would take to clear it and put it into cultivable condition. There could be no injustice in such a valuation. The man who improved land, that ought to be reduced also in assessment; the assessor must take into account the land in its natural state and location, and was not allowed to tax the value brought about by clearing and cultivation. The clause in the statutory definition of assessable value had been changed by the 1924 Legislature from "land at its fair, actual value, exclusive of buildings and improvements thereon," the omission of the word "thereon" in order to conform to new conditions of actual value brought about by drainage and irrigation schemes, but it had a bearing on other assessments. Timber prevented the productivity of the land, and it could not be assessed at the same value as presently arable land. The Assessor and the Chairman had in interesting argument with Mr. Hope; they were inclined to the view that all raw land, whether open, brush or timbered, of equal acre capacity, should be assessed on the same basis of value, while Mr. Hope said that the lands laid down by the law of "fair actual value" as determined by the

WHEREVER you buy it, Magic Baking Powder is entirely dependable, because it contains no alum or adulterants of any kind.

MADE IN CANADA
E. W. GILLET & CO.
WINNIPEG, TORONTO, MONTREAL

market prices must govern. The Assessor took the position that as the clearing of land of brush was generally recognized as an improvement, therefore, any attempt to place a higher value on cleared land would be really be valuing improvements which would be contrary to the Act forbidding assessment on improvements. As to taking the land as the Assessor found it, Mr. Dave contended that there was no means of telling whether a piece of land had been originally covered with brush, or not. Though it did not come out in this argument directly, it must appear that the fair actual values of uncultivated lands had been established by the Canadian Pacific Resources department by appeal from the M.D. Council of Revision to the District Court Judges, and that this had had an effect in lowering assessment valuations in a number of districts.

These lands were reduced in the general reduction by 25 per cent. Mr. Geo. Thurston, assessor for the M.D. of Arthur, appeared on behalf of his brother in appeal against the assessment of \$21.40 per acre on N.W. 1-26-W4th. Mr. Dave had gone as high as \$28 per acre on some Pine Lake M.D. land; Mr. Thurston's best M.D. Arthur quarter was at \$24 an acre. On some low lying land Mr. Dave had \$14 per acre, while Mr. Thurston valued it at \$9. Mr. Dave's valuations, he was satisfied, would not stand before the judges.

Mr. Hober Hargreaves appealed against the assessment of S.W. 12-26-W4th, and neighboring quarters. He thought a 30 per cent reduction would not be out of the way. The assessment was \$18 per acre, and he was very well agreed on the nature of the land, but two quarters were 148 acres, instead of 160 acres. Mr. H. G. Smith had an increase of \$800 over his last assessment on S.W. 20-27-W4th. He would be satisfied with a 25 to 30 per cent reduction. Mr. E. Boote had a lively argument over N.W. 26-26-W4th, which he considered far too high assessed as compared with a neighboring quarter. Other appeals were:

John Mackenzie—S.E. 20-27-25.
Philip McIntosh—W. half 33-27-26 and W. half 24-27-27.
W. P. Code—N.W. 32-27-26 and N.W. 6-26-26.
W. Peterson—N.W. 23-26-25.
Alex. McIntosh—W. half and S.E. quarter 25-26-26 and S.W. 24-26-26.
E. Hertz—W. half 17-26-26.

The Assessor admitted that in certain cases his information might have been at fault as to acreage or classification of soil, or as to lands ordinarily too wet for cultivation. A number of appeals based on these grounds received favorable consideration of Assessor and Council. In other cases, where the applicant showed that similar land in the neighborhood was given a lower assessment, special consideration was given to the appeal, although the Assessor claimed

that the schedule of values was rigidly adhered to in all cases, and considered it doubtful if many alterations could be fairly made in such cases. Appeals of a general nature as to land being too highly valued were dealt with in the general appeal which followed on the completion of the consideration of individual appeals.

Following are the individual appeals which received favorable consideration from the Council:

P. Code—Reduction for stony ground—42 an acre.
P. McIntosh—Reduction for hilly land—24 an acre.
John Kennedy—Reduction \$1 an acre.
James Freeman—Reduced to \$18.
Herman Greene—Classification of land; reduced.
Patchett and Myers—Amount of acreage; reduced.
John Kirton—Reduction of \$300 in assessment.
W. Malabary—Reduction of \$2 an acre on one quarter only.
Fred Barton—Adjustment made on account of low lying land.
H. H. Clayton—On S.E. 10, classification of 40 acres changed from arable to hay land.
P. Kirton—Classification of 30 acres changed from arable to pasture.
J. Thurston—Allowed 5 acres waste land on two quarters.
G. W. Smith—Acreage reduced.
H. E. McCall—Allowed 40 acres of waste land on two quarters.
T. Burrington—Allowed \$3 an acre off 60 acres for rolling character of land.
H. Hargreaves—Allowed \$3 an acre reduction on account of spring and creek.
J. Wells—Adjustment made.
A. H. Charlton—Allowance made for difference in acreage.
Harry Smith—Land of arable class reduced from 100 to 70 acres, total reduction of \$480 in assessment.
Peter Olson—Land put in lower class.
Harry Reay—Acreage reduced.

The Reeve and the Secretary-Treasurer believed the Court had power to reduce the assessment, and accordingly the Council unanimously decided to make a flat and general reduction of 25 per cent to obtain "a fair, actual value."

The Council passed a vote of thanks to Assessor Dave for the thorough manner in which his work had been done, and for the assistance he had given them in the matter of adjustments. Council adjourned at 5:15.

M.D. OF RAVEN NO. 342

A meeting of the Council of the Municipal District of Raven, No. 342, was held on Saturday, December 27, 1924, with Messrs. Roper, Taylor, Atkinson and Shaw present.

Moved by Mr. Atkinson that as appeal against Wild Land tax on N.W. 10-36-6-5 is not properly paid, it be tabled. Carried.

Moved by Mr. Roper that Mrs. G. Evans be granted Mothers' Allowance to the amount of \$30 per month as per Inspector's recommendation. Carried.

Moved by Mr. Taylor that the following salaries be fixed for the year 1925: Provincial Training School, C. Evans, \$30; Red Deer Advocate, printing, \$4.25; E. J. Atkinson, \$47.20; A. O. Taylor, \$13; T. Roper, \$33; A. C. MacDonald, poundkeeper's fees, \$3.80; Providence Hospital, J. C. Warren, \$80; Mothers' Allowance, A. Hall and F. Linnborg, \$20; Councilor's fees and mileage, A. Hall and F. Linnborg, \$20; Providence Hospital, J. C. Warren, \$80; Provincial Training School, C. Evans, \$30; Mountaineer Print, stationery, \$10.50. Carried.

Nominations were received for Returning Officer, and on a ballot being taken Mr. A. Saunders was appointed. Moved by Mr. Roper that Mr. Shaw's action in having the Superintendent of Dependent and Delinquent Children take charge of the neglected children in his division, be endorsed. Carried.

Moved Mr. Roper that the following pay sheet be passed: Div. 2, \$32. Carried.

Meeting adjourned.

J. E. H. McCAE, Secy-Treas.

More than 100,000 Members hold Policies in The Mutual Life of Canada

The Strength of All is the Strength of Each

ONE man against the world is but a pawn in the Game of Life. The Mutual Life of Canada gives you the strength of organization—the safety of numbers.

In the Mutual Life, more than 100,000 policyholders are united for Mutual protection. Theirs is the strength of united purpose.

You should have a policy in the Mutual Life of Canada. The Mutual Life is safe, strong, beneficent. It will protect you and your dependents, at a minimum cost because profits on Mutual operations go back to the policyholders. You should let our Agent advise you as to the type of Mutual policy most suited to your situation. Be frank with him as to your position and he will give you disinterested counsel.

Write today for "The Mutual Book."

JOFFRE ITEMS

Don't forget the Ladies' Aid sale of work and basket social to be held on February 13th in Blades Hall.
Mr. and Mrs. H. F. Miller gave a dance last Tuesday in honor of their son's wedding. Two hundred guests being present. During the supper hour the bride and groom were presented with a silver baking dish and a hair dozen silver knives and forks by the community. A nice programme and splendid music completed a very happy evening.
Dorothy Blades and Rita Donley were home from St. Joseph's Convent for the week-end.
Another car of coal will be on sale at the elevator in a few days.

RED DEER BOY SCOUTS

No. 1 Troop Committee Holds Meeting

The Local Association of No. 1 Troop, Red Deer Boy Scouts, met on Wednesday, January 28th, at 8 p.m. in the office of Messrs. Percival and Gillespie. The President, Judge Mahaffy, was unfortunately out of town, and the attendance was somewhat small. The Secretary-Treasurer, Mr. G. N. Finn, presented the financial statement which, together with the books, had been kindly audited by Mr. A. L. Leigh. Receipts have been issued for all moneys received, and all expenditures have been duly vouchered. The financial statement was adopted.
The Scoutmaster, Mr. R. S. Gillespie, gave a brief account of the Troop since he took it over in September last. There were 19 names on the roll, the average attendance for the 4 months, September to December, being 14. Instruction had been given in First Aid, Trekking, and Astronomy. A competition had been held between the three patrols, points being awarded for attendance, punctuality, patrol duties, etc. This competition had been won by the Owl Patrol under Patrol Leader Bill Parsons. By a secret ballot of the entire Troop Edgar Wood had been elected Troop Leader, his place as Patrol Leader being filled by the election of Walter Macdonald. The three Patrol Leaders were now: Bill Parsons, Norman Botterill and Walter Macdonald. The following boys had passed the tenderfoot stage and had been duly invested as Scouts: Jim Dwy, Leonard Milne, Harry McNally, Fred Horn and John Solomon.
There was some discussion as to ways of making Scout training more attractive and useful. One of these will be passed on to the other Troops for conference.
The meeting closed with an expression of appreciation and gratitude to Scoutmaster Gillespie for the time and energy he is freely giving in helping to produce good Scouts.

HAYNES HAPPENINGS

The Literary Society got off to a good start last Friday night with a very good mixed programme of songs and recitations. The young folks from the east corner helped out a lot and are getting in shape for the future. Next meeting of February 6th promises to be a dandy good debate with Mrs. Burritt and Mrs. Sage against Charlie Bucknell and Alex. Ellis. The young folks are putting up a debate later on.
Italy Irish spent a day or two in Red Deer with Bessie Thompson.
Annual meetings have been all the go. Annual U.P.A. had a well attended meeting the other day. The rate-payers' school district had a few out and Joe Dalry was re-elected trustee. Sunday night the annual reports for the Union church were given. The reports given by S. S. Secretary and Church Treasurer show finances in a splendid condition, everything paid up and considerable paid off on the house fund. Mr. Irish's report on general conditions was very encouraging, as the attendance the past year has been excellent.
